Characteristics of high-power lead-free soldering station QUICK205

** High near eddy current heating, temperature and speed back to temperature, lead-free soldering.*

** Microcomputer control, push-button thermostat, digital temperature calibration, and has automatic sleep and automatic shutdown.*

** 150W high-power design, the conventional option with a maximum of 8mm of the tip.*

** Password temperature locking function, the effective protection of the production process.*

** Anti-static design, a variety of tip to choose from.*
